

Bright Green Technology

LED lighting for retail displays

About Bright Green Technology

Bright Green Technology pioneered the use of LED backlighting and remains at the forefront of development. LED lighting transforms the effectiveness of retail displays and signage.

We can provide everything you need to turn a retail vision into profitable reality. We work from the initial design and prototyping stage right through to install and fit out, always on time and always cost-effectively.

Bright Green Technology

About Bright Green Technology

Bright Green Technology specialises in LED systems that dramatically improve the quality and performance of backlit media, illuminated signage, retail displays and architectural features.

We've worked in the most iconic locations for the biggest companies and won their trust for our product quality and customer support.

Our Approach

Discover

We take time to understand your business

Define

We work with you to determine your real objectives

Design

We create solutions and packages that suit your objectives

Discuss

Sound, senior advice is always on hand

Deliver

Every project is evaluated against agreed success measures and ROI

The intelligent answer to your LED requirement saves you time, money and energy. We are practical, hands-on people who understand both state-of-the-art lighting technology and the realities of your business. So while we provide all the products you need, we place equal emphasis on trusted advice and ongoing professional consultancy.
