

Bright Green LED Lighting

We'll bend over backwards to get it right

Bright Green Technology specialises in LED systems that dramatically improve the quality and performance of your architectural features, illuminated displays and signage.

Design and consultancy services

The right lighting is critical so we employ professional designers experienced in display, outdoor advertising, retail, office and all environments in between. As well as providing all the products you need, we place equal emphasis on trusted advice and ongoing professional consultancy.

Why choose Bright Green Technology?

Our clients choose us because so much comes as standard. We've worked in the most iconic locations for the biggest companies and won their trust for our product quality and customer support.

Our approach

- **Discover** - we take time to understand your business
- **Define** - we work with you to discover your real objectives
- **Design** - we create solutions and packages that suit your objectives
- **Discuss** - sound, senior advice is always on hand
- **Deliver** - every project is evaluated against agreed success measures and ROI

Bright Green LED Lighting

Brands look better, displays cost less

We understand that return on investment is vital to any project. You need a reliable indicator of genuine costs and a clear analysis of when it will pay back. That's exactly what Bright Green Technology provides.

Exhibitions

Window display

Exterior signage

Point of purchase displays

This consultative approach helps you look better, spend less and reduce your environmental impact - saving you time, money and energy.
