

# The Igloo Bar - Case Study

## Background

Situated under The Abbey Hotel, this space was last used as an air raid shelter during World War II. The hotel wanted to develop the area into a stylish, relaxed and unique space.

Beaufort Bespoke were commissioned to manufacture and install the new ice bar area. The theme was to create a bar that looked as if it was within an Igloo.

## Lighting the bar

The front of the bar is faced with acrylic "ice blocks", backlit with our RGB LED Light Panels.

The back bar has small acrylic "ice cubes" set between toughened glass with LED light panels used to illuminate the bottles on the glass shelves. The panels can be set and dimmed to any colour.

We supplied 9 LED Light Panels, all with our newly developed RGB frame. This new custom frame has a deeper aluminium heat sink and uses an 8mm acrylic, all designed to work with the slightly wider RGB PCB.

“ We found the technical expertise and overall response times from Bright Green second to none. Highly recommended. ”

## About Bright Green Technology

Bright Green Technology specialises in LED systems that dramatically improve the quality and performance of backlit media, illuminated signage, retail displays and architectural features.

We've worked in the most iconic locations for the biggest companies and won their trust for our product quality and customer support.

## Our Approach

### Discover

We take time to understand your business

### Define

We work with you to determine your real objectives

### Design

We create solutions and packages that suit your objectives

### Discuss

Sound, senior advice is always on hand

### Deliver

Every project is evaluated against agreed success measures and ROI

The intelligent answer to your LED requirement saves you time, money and energy. We are practical, hands-on people who understand both state-of-the art lighting technology and the realities of your business. So while we provide all the products you need, we place equal emphasis on trusted advice and ongoing professional consultancy.
